

The following rules apply to your homework:

- Problems should be written out in consecutive order. They need to be easy to locate.
- **You must copy each problem, including all directions, before solving it. You must copy or make any appropriate drawing.**
- Space your work out so it is easy to read. (Paper is an inexpensive, renewable resource!)
- Multiple pages must be stapled and tatty edges need to be trimmed.
- Homework that is illegible or sloppy will not be graded.
- Proofs must be rigorous and clearly written in appropriate mathematical format. No proof, no credit given.
- All graphs and drawings must be done in pencil.
- Late homework will not be accepted for any reason
- You are encouraged to discuss assignments with your classmates; however, you are required to write up your work independently. Copied homework will not be tolerated and identical, or nearly identical, assignments will *share* a single homework score.
